RESPONSE TO NOTIFICATION OF  
A DEFECTIVE OATH OR DECLARATION

Commissioner for Patents, Box PCT  
Washington, D.C. 20231

**COPY**

Sir:

With reference to the Notification of a Defective Oath or Declaration received for the above application (copy enclosed), in particular item 4, Applicants submit herewith a newly executed Declaration and Power of Attorney by inventor, Mark G. Luehrmann, which indicates his citizenship to be that of the United States. Although it is not clear from the Notification received from the PTO, it is believed that this is the only inventor for whom citizenship was not identified. That omission has now been corrected.

With further reference to item No. 1 of the Notice, the undersigned attorney believes that the prior Oath or Declaration was in fact executed in accordance with 37 CFR 1.66 or 37 CFR 1.68. In particular, §1.68 requires the following:

Any document to be filed with the Patent and Trademark Office and which is required by any law, rule, or other regulation to be under oath may be subscribed to by a written declaration. Such declaration may be used in lieu of the oath otherwise required, if, and only if, the declarant is on the same document, warned that willful false statements and the like are punishable by fine or imprisonment,

or both (18 U.S.C. 1001) and may jeopardize the validity of the application or any patent issuing thereon. The declarant must set forth in the body of the declaration that all statements made of the declarant's own knowledge are true and that all statements made on information and belief are believed to be true.

It is brought to the attention of the Patent and Trademark Office that this language is present on the Declaration on page 2 directly above the information for the first inventor, Mr. Luehrmann. This objection is respectfully requested to be dismissed.

The undersigned believes that all requirements of the Patent and Trademark Office have been met and that the application is in condition for issuance of the official Filing Receipt.

In addition, please provide any further extensions of time which are required or charge any additional fees which are required Deposit Account No. 23-3030, but not to include any payment of issue fees.

Respectfully submitted,

## NOTIFICATION OF A DEFECTIVE OATH OR DECLARATION

This application fails to contain an oath or declaration acceptable under 35 U.S.C. 371(c)(4) for entry into the national stage in the United States of America. The period within which to correct the deficiency noted below and avoid abandonment is set in the accompanying Notification.

A new oath or declaration, properly identifying this application (preferably by the international application number and international filing date) is required. The oath or declaration does not comply with 37 CFR 1.497(a),(b) and (f) in that it:

1. ☒ is not executed in accordance with either 37 CFR 1.66 or 37 CFR 1.68.
2. ☐ does not identify the application to which it is directed.
3. ☐ does not identify the inventor(s).
4. ☒ does not identify the citizenship of each inventor.
5. ☐ does not state that the person making the oath or declaration believes the named inventor or inventors to be the original and first inventor or inventors of the subject matter which is claimed and for which a patent is sought.

COPY

FAILURE TO SUBMIT AN OATH OR DECLARATION IN COMPLIANCE WITH 37 CFR 1.497(a) AND (b), AND 1.497(d) WHERE APPROPRIATE, WITHIN THE TIME PERIOD SET WILL RESULT IN FAILURE TO ENTER THE NATIONAL STAGE AND THE ABANDONMENT OF THE APPLICATION.

Additionally, the oath or declaration does not comply with 37 CFR 1.63 in that it:

1. ☐ does not identify the mailing address of each inventor. If the residence is different from the mailing address, then the city and state or city and foreign country of residence of each inventor must also be given.
2. ☐ does not state that the person making the oath or declaration:
  - a. ☐ has reviewed and understands the contents of the application, including the claims, as amended by any amendment specifically referred to in the oath or declaration.
  - b. ☐ acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.
3. ☐ does not identify the foreign application for patent or inventor's certificate for which a claim for priority is made pursuant to 37 CFR 1.55, and any foreign application having a filing date before that of the application on which priority is claimed, by specifying the application serial number, country, day, month, and year of its filing.
